STUDENT POLICIES GOALS

It is the belief that the students of Marshall Public Schools are the first concern of the district and must receive the primary attention of the Board of Education and all staff members. To fulfill this obligation to students, the Board shall strive to formulate policy and consider matters related to students as an important function of their Board duties. A similar commitment is expected of all staff members. In pursuing this primary goal, it is imperative that the good of the individual student be kept paramount. Each student shall be considered and treated with respect as an individual.
