STUDENT INTERVIEWS BY NON-SCHOOL PERSONNEL

The district is committed to establishing a cooperative working relationship with all administrative-sanctioned agencies whose representatives need or wish to work with students. The district is also interested in ensuring that the interests of students and their parents/guardians are protected while students are a responsibility of the school district.

Therefore, the district has established procedures which shall be adhered to when non-school personnel work with district students. These procedures shall be in effect during school hours which include those times designated for school-approved activities.

Cross Reference: Administrative Rule 445, Procedures for Student Interviews by Non-School Personnel

Date of Adoption: July 11, 1996

Date of Revision: October 18, 2006
