Board exhibit 821.4

WEB PAGE POSTING NOTICE

Date

Throughout the school year we will be taking pictures/videos of students as they participate in various classroom activities. The pictures may be posted on classroom bulletin boards, in the local newspaper, in the district newsletter or on the district website. Photos posted on the district website **WILL NOT** include student names. They may, however, include the student's first name to identify a poem, essay, piece of artwork, or some other specific piece of work. Teacher name, class and class period may also be listed.

Since our web pages may be visited by people not affiliated with Marshall Public Schools, we are notifying parents of this practice. If you **do not** want your son's/daughter's picture posted on any district web pages, please complete the form below and return it to your school office no later than **[DATE]**. If you do not return this form, we will understand that you give permission for any pictures/videos to be posted as stated above.

After reviewing the above notice, I **do not** want my child's picture/video to be used on any Marshall school district web pages. I understand that photos may still be posted on classroom bulletin boards and in the local paper/news unless specified below.

Child's name: _____ School: _____

Parent signature: _____ Date: _____
