

## Marshall Elementary School Title I Parent Involvement Compact

Marshall Elementary School is a Title I School-wide school. This means that our school receives federal funding to support high quality instruction and improve academic achievement. We use these additional funds to provide instructional coaching and interventions for teachers and students.

Our Title I goals in the coming year are to:

- Design and implement instruction that supports learning for each child
- Integrate Common Core aligned reading, writing, and communication into all subjects
- Integrate technology to support high quality instruction in all subjects

Along with data collected by teachers in the classroom, we will continue to use Measures of Academic Progress (MAP) and Wisconsin Knowledge and Concepts Exams (WKCE) to measure our progress toward our goals. In addition, third and fifth grade students will participate in a mid-year District Writing Assessment. These assessments inform our practices and help us continuously improve.

### Parent Involvement:

We know that students learn best when everyone works together to encourage learning. Our teachers work to be positive role models and build safe learning environments for children. Marshall Elementary School staff maintains high levels of parent communication and work to build strong relationships between school and home. These relationships are critical to student success at school.

When students, parents, and teachers work toward the same goals everyone finds success. We are asking for your help in reaching some important goals. Please read through and talk about these goals with your child. Then sign and return this form to your child's teacher.

**Thank you so much for your involvement and support of learning in our school!!**
